

Annual Copyright License

Comprehensive Copyright Coverage For Today's Dynamic Businesses.

Today, employees need immediate access to information and the freedom to use that information in a variety of ways. They email. They photocopy. They create Web postings. They fax. It's all just part of the normal, daily workflow. But without the proper rights, it can be a violation of copyright law.

In the daily rush to get things done, even well-intentioned employees may not always remember to follow your copyright policies and procedures. Factor in all the digital technologies now available to access and distribute information and the risk of copyright infringement multiplies.

It is a complex problem. Here's a simple solution: the Annual Copyright License.

The Annual Copyright License provides truly comprehensive coverage for the way people work today. It enables your employees to lawfully reuse and share content within your organization in a variety of ways, such as:

- Copying and pasting content from online sources into internal documents or posting to your corporate intranet.
- Collaborating on research projects by copying, printing or emailing articles to share with co-workers.
- Emailing timely articles of interest from online newspapers, journals and other publications to co-workers.
- Submitting electronic filings to government regulatory agencies.

A cost-effective solution to your copyright compliance needs.

Copyright Clearance Center's Annual Copyright License enables U.S.-based employees to lawfully use and share copyright-protected material in print and digital formats within your company. It eliminates the administrative burdens of tracking and managing content use, so your employees can focus on the business and let the information flow freely.
