

Copyright for Today's Academic Environment

From course management systems to e-reserves, technology is changing the way faculty, staff, and students share information. Copyright Clearance Center offers a variety of educational options to meet your specific needs. Our instructor-led programs incorporate group discussions, question and answer sessions, and analysis of real world scenarios.

REGIONAL WORKSHOPS

Day-long sessions including instructional materials with supplemental primers and whitepapers

ONSITE WORKSHOPS

Customized full and half day sessions at your location

ONLINE SEMINARS

Interactive Web based sessions led by an instructor

SPECIAL EVENTS

Speaking appearances and sessions with industry leaders at key conferences and tradeshows

PROGRAM DESCRIPTION

Copyright boiled down to easy-to-digest language and concepts, including concerns primary to the academic community in today's dynamic, digital environment.

Copyright Foundations

An introduction to copyright law, including the history and definition of copyright, public domain and fair use, with specific focus on the academic and library environment.

Challenges Beyond the Basics

An overview of recent copyright law modernizations, including the Digital Millennium Copyright Act (DMCA) and Technology, Education and Copyright Harmonization (TEACH) Act, copyright in the digital age, and best practices for the use of text based content in course management systems and electronic reserves.

Copyright Law and Libraries

An in depth investigation of library provisions within the law addressing the reproduction of copyrighted works for interlibrary loan, document delivery, replacement and archival copying, and preservation.

WHO SHOULD ATTEND?

Librarians, faculty and staff members, administrators, bookstore, copyshop and reprographic personnel, IT managers, course developers, students, and anyone who wants to gain a basic understanding of copyright in academia.
